RESIDENTIAL PRODUCT GUIDE

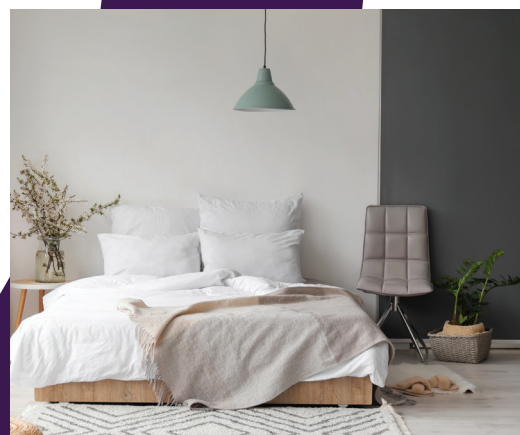

enerlites.com

About Us

Simple household devices we interact with every day, such as light switches or receptacles, are often an afterthought when looking to build or upgrade a space. However, the smallest details really do make the biggest difference in aesthetics and with proper planning - provide a greater return on investment.

Enerlites offers a wide variety of innovative products designed for building and upgrading homes for the future. Our product line includes patented devices that promote energy efficiency and apply cutting-edge technology that expand the meaning of comfort and convenience in the home.

From eco-friendly scalable lighting and guide light solutions to full smart-home automation, our high-quality, competitively priced wiring devices are accessible to home builders and interior designers of any kind.

Every unit is thoroughly inspected throughout the manufacturing process and all applicable products are CA Title 20 and 24 certified, UL or ETL listed, and meet applicable NEC codes.

We are confident that our products will meet your specifications, are easy to install, and will increase end-user satisfaction. With over 700 products to choose from, you will find the perfect solution for any residential project.
